

Dear Parent,

We need your input! Our school district and the Kentucky Department of Education (KDE) want to hear from parents regarding how well your child's school is doing to involve you in the special education services provided to your child.

We would like you to complete a brief, online survey to share your experience with your child's special education services during the current school year (2016-17). Please go to www.kypso.org, click "*Click here to access the 2017 Parent Survey,*" and complete the eleven-question survey telling us about your current experiences.

You may also access the survey directly by scanning the following code into your smartphone or mobile device:

If you would like to visit the school to complete the survey, you are more than welcome to use one of our computers. Unfortunately, this survey is only available electronically as we are unable to process paper copies.

Only one parent per student should complete this survey. However, if you have more than one child with an IEP, please complete a survey for each of your children.

All responses are anonymous and cannot be traced back to you or your child. Results will be analyzed by the Human Development Institute (HDI) at the University of Kentucky (UK) and used for a report to the U.S. Department of Education. We will also be reviewing the final report to see if we can do more to involve parents in their child's special education program.

The deadline for completing this very important survey is **May 31, 2017**.

Thank you for your help.
